

**W**e, the Administration, Faculty, and Staff of Immaculate Conception School, in partnership with our families, place primary importance on the proclamation of the Good News of JESUS CHRIST.

**W**e strive for academic excellence in a Catholic, Christ-centered environment through a well-balanced academic curriculum, particularly on the mastery of fundamental life skills, and the development of patriotism toward the United States of America.

**LEARNING  
to CHANGE the  
WORLD**

**W**e aim to prepare our

students for life both here and hereafter, by the harmonious development of all the powers of the human being: spiritual, moral, intellectual, social, emotional, and physical, according to their essential hierarchy with our Creator.

# IMMACULATE CONCEPTION SCHOOL

PEN ARGYL, PENNSYLVANIA

**WHERE FAITH &**

**KNOWLEDGE MEET**

*Member of the  
Middle States Association of Colleges and Schools*

## SPIRITUAL LIFE

Immaculate Conception School offers its students a strong religious foundation through the presence of, and the direct instruction by, religious Sisters.

Religion classes are taught daily and include special preparation for receiving the Sacraments of Reconciliation, Holy Communion, and Confirmation. Daily prayers as a school community, a weekly student Mass, First Friday and First Saturday Devotions are central to the spiritual development of our students.

The Young Dominicans of the Immaculate Mother (Grades Three through Six) come together twice each week to pray the Church's official prayer, the Liturgy of the Hours. The spiritual growth of our students is strengthened through the dedicated Pastors, parents, teachers, and staff.

## ACADEMICS

Our school is staffed by six Sisters of the Dominican Daughters of the Immaculate Mother and two devout Catholic lay teachers. All of our teachers have earned a minimum of a Bachelor-level degree in Elementary Education and are continually encouraged to attend college classes and workshops to keep abreast with the current trends in education.

Our curriculum is geared toward the development of the spiritual, moral, and academic growth of our students.

Our program provides solid learning experiences in religion, reading, mathematics, language arts, foreign languages, social studies, physical education, art, computer technology, music enrichment, and library skills.

Strong academic standards are implemented with special services provided by the Commonwealth of Pennsylvania. These services include remedial instruction, speech therapy, and dental and health services.

Classes are self-contained, in a coeducational classroom environment, with personalized instruction, which leads to an increased level of self-direction and independent learning.

## TECHNOLOGY

Our state-of-the-art networked computer lab is equipped with nineteen PC-compatible workstations, operating in the Windows XP Professional environment. Every student is instructed in fundamental keyboarding and word processing. Students also have closely supervised access to a broadband Internet connection for academic purposes.

The lab is complete with digital photography equipment and scanners for class projects. Each of our classrooms is equipped with at least three workstations for student use, with grade-appropriate software packages. To enhance our students' ability to conduct thorough research, our library has several workstations as well as supervised Internet access.

Our newly implemented Technology Plan is continually reviewed to accommodate the growing needs of our students, faculty, and staff.
